OUR STORY

In 1988, TRE4x4 began the manufacturing of drive train components for some of the worlds' leading automotive brands. As an organization of off-road enthusiast, we recognized the limitations of open differentials in low traction environments. After several years of testing, we developed our line of TRE4x4 Air Locking Differentials. Since then, we have been building on the success of our Air Lockers. We have added additional products to portfolio to include suspension components, off road recovery equipments, storage systems, portal axles, winches, bumpers, roof rack, lighting solutions, canopies as well as a variety of other camping accessories. We are striving to be the off-road enthusiasts one-stop shopping venue!

In the continuing quest to be the enthusiasts one stop shop for exploration, TRE4X4 continues to build and add dealers to our network. Thus far, we have established a worldwide distribution network with dealers from more than 60 different countries.

Today , uphold the passion and enthusiasm for Off-road and combination of extreme testing behind it ,TRE4x4 portfolio have been expanded and upgraded. year by year , strive to let every customer find the suitable and favourite products for each vehicle.

Stringent quality control system ensures high standards maintained , and also ensures to satisfy your off-road needs.

DEVELOPMENT

The product development team at TRE 4x4 continues to develop and create a diversified product portfolio in order to meet the demands of the off-road community. From the tireless efforts of TRE4X4 development and manufacturing team to our diversified dealer network, the TRE4X4 team continues to meet and exceed our customer's needs.

All TRE4X4 products meet stringent quality control standards and high standards are maintained. TRE4X4 is ISO9001 and TS16949 certified and has been selected as an OEM component provider to major European companies. No matter the product or application, TRE4X4 insists on providing the customers with the best quality products and services. Some of our products are covered by a 5 year limited warranty – how is that for confidence!

DISTRIBUTION

With dealers in more than 60 different countries, the TRE4x4 goal of having a dealer in every major country is quickly becoming a reality. Our TRE4X4 products can help those that explore, to explore farther and with confidence.

TRE4X4 flagship store franchise plan release in 2021, Discover , Explor , Adventure- become a member of TRE4X4 adventure team today . Consider becoming an authorized TRE4X4 merchant. We are always welcoming new enthusiasts to our team.

TRE AIR LOCKING DIFFERENTIAL

APPLICATION:

CHEVROLET OR GMC OR HUMMER
CHRYSLER OR JEEP
DODGE
FORD
HOLDEN
HYUNDAI
ISUZU
KIA
LAND ROVER
MAZDA
MAHINDRA
MITSUBISHI
NISSAN
SANTANA
SSANG YONG
SUZUKI
TOYOTA / LEXUS
VOLKSWAGEN

TRE ELECTRIC LOCKING DIFFERENTIAL

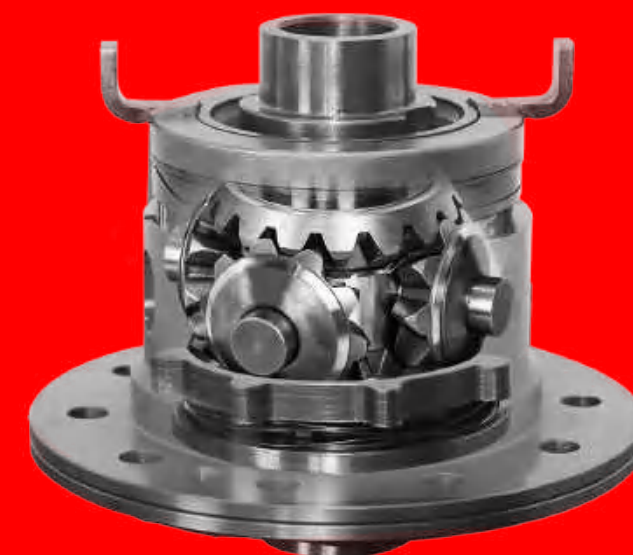

APPLICATION:

CHEVROLET OR GMC OR HUMMER
CHRYSLER OR JEEP
DODGE
FORD
HOLDEN
HYUNDAI
ISUZU
LAND ROVER
MITSUBISHI
NISSAN
SSANG YONG
TOYOTA / LEXUS

ELECTRIC LOCKING DIFFERENTIAL

TRE Electric Locking differential is engaged by electricity. The magnet in the electric locking differential is powered, pushing the gear to lock both axles, sending 100% traction to both wheels.

- Electromagnetic locking mechanism
- Push button solution to traction problem
- Locks and unlocks when necessary
- Improved strength and durability
- A must for all traction/off-road performance
- No air lines, no compressor - just traction

ELECTRIC LOCKING DIFFERENTIAL

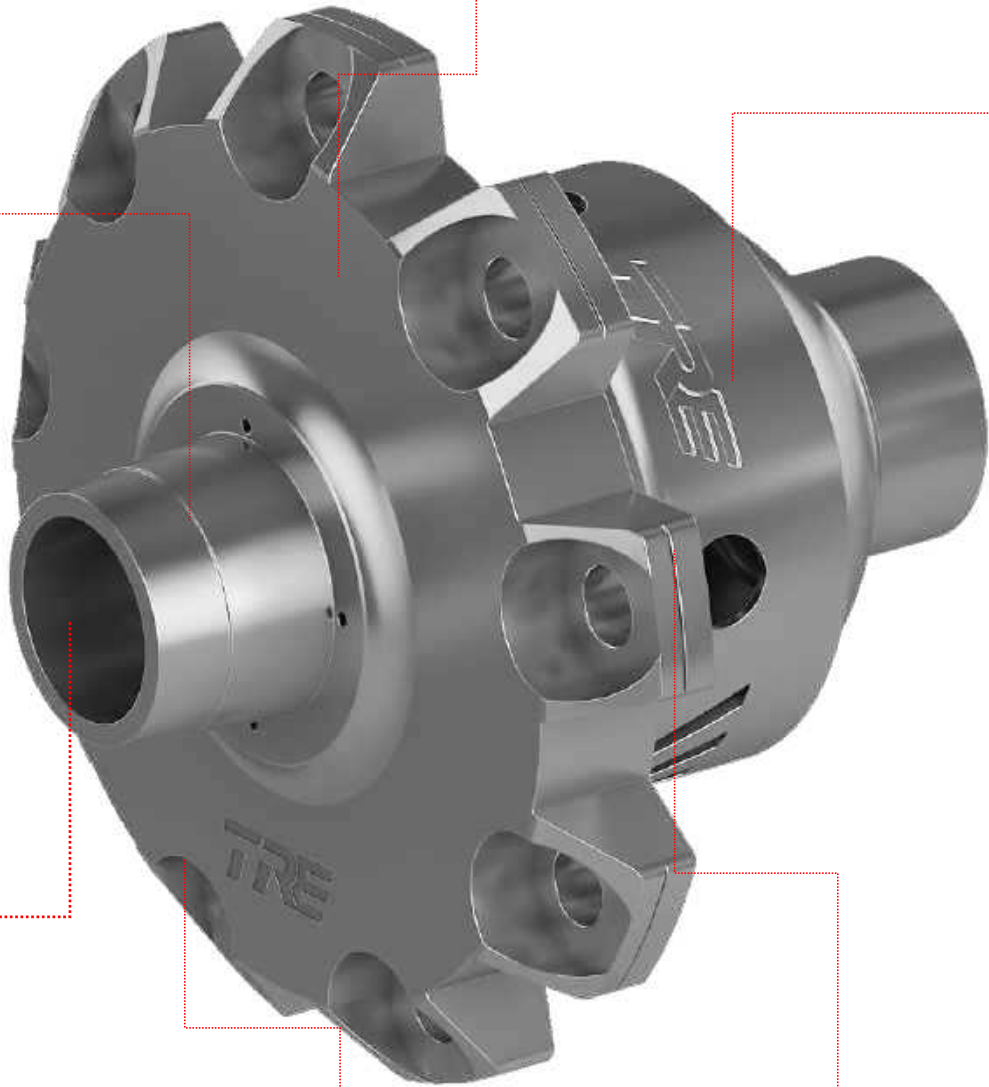

- Well designed structure without wear parts
- Without air leak risk
- Lock the two axles as fast as you need the traction
- New design, road tested
- Simple design with easy installation

AIR LOCKING DIFFERENTIAL

Heavy industry and agricultural alloy materials are used as raw materials, to guarantee the maximum ruggedness of parts.

Two-layer design provides more precise matching and higher work efficiency, reduces grinding and instability caused by moving parts.

Strongest materials forced 8620 steel for differential case, 4320 chromoly alloy steel for gears

Both available for most popular 4 wheel drive and 2 wheel drive vehicle model on market.

Unique oil return design keep your differential under lubrication protection away from unwanted wear.

Tough hardened and thickness increased clutch gear to provide best work efficiency and stability.

TRE LOCKING DIFFERENTIAL

TRE Locking Differential is designed to take you to the destinations that you dream about. A simple flip of a switch will provide maximum traction when needed and maneuverability when it is not. Our system provides an affordable and reliable option for those who wants the most out of their off-roading adventures.

TRE4x4 provides a stable 5-year warranty with extensive distribution network and high-quality after-sales service to provide 100% after-sale protection.

Strongest 4320 chromoly alloy steel gears provide the most rugged quality and the most stable work efficiency.

Under the continuous research and development of TRE4x4, more available models for more popular models are constantly being updated.

The hardest hardness and increased thickness to make it provide the best working efficiency and stability when locked.

TRE AIR SYSTEM

TRE PORTABLE COMPRESSOR KIT

PART NUMBER: TRAM-PACK-002

The Portable compressor kit comes with a full wiring loom and mounting hardware for easy installation, whilst the portable kit includes a 6 metre air hose, battery clamps, inflation kit and a durable carry case.

We can easily meet any of your needs, whether they can be for work or play.

- Equipped with TRE4x4 digital tire inflator
- Portable : Small enough to accommodate the narrowest space
- Box material: PTFE, to provide maximum trouble-free service life
- Multifunctional: Inflate tires and perform other functions, such as camping or leisure equipment

TIRE INFLATOR HOSE

PART NUMBER: TRAM-TIFHO05

Temperature resistance: -20°C - 60°C
Maximum bearing pressure: 15-20kg
Breaking pressure: 55-60kg
Length: 6M

DIGITAL TIRE INFLATOR

PART NUMBER: TRAM-TIF001

Temperature resistance: -20°C -80°C
Maximum bearing pressure: 15kg

E-Z TIRE DEFLATOR

PART NUMBER: TRAM-TDF002

Temperature resistance: -20°C - 80°C
Maximum bearing pressure: 15kg

TRE DIFF BREATHER KIT

PART NUMBER: TR-BT001

Working temperature: -20°C - 120°C
Customizable tubes can work at : -40°C

TRE TIRE REPAIR KIT

PART NUMBER: TR-TRK001

TRE tire repair kit is ideal for repairing punctures in the tubeless tires of Motorcycles, ATVs, Bikes, Jeeps, Trucks & Cars. Includes everything you need to quickly repair punctured tires on sedans, bicycles, SUVs, tractors and almost all tubeless tires.

TRE AIR COMPRESSOR

PART NUMBER: TR-LAC-003

With your TRE Air Compressor, you can control your TRE Air Locker when you need more traction on the trail and so much more,Air up your tire up when you going from the trail to the road and fill you air atress when you go to the campsite.

Motor Voltage:	DC 12V
Recommended Fuse:	40A
Max Current Consumption:	30A
Max, Working Pressure:	150PSI
Motor Type:	Permanent Magnetic
Max Duty Cycle(@72°F& 100 PS1):	Motor 33%
Max. Run Time (@72°F& 30 PS1):	60 Min
Flow Rate @ 0 PSI (13.8 Volts):	2.3 CFM(65L/Min)
Max Ambient Temp:	70°C(+158°F)
Min Ambient Temp:	-30°C(-22°F)
Auto. Reset Thermal Protection:	yes

PORTABLE TWIN AIR COMPRESSOR KIT

PART NUMBER: TRAM-TAC-P001

Kit Include :	Working Voltage:	DC-12V
Portable Carry Box	Max. Current :	60A
Twin Air Compressor	Operating Environment:	-40°C →+ 80°C -40°F →+ 176°F
4L Gas Tank	Highest Air Flow Rate:	178L/Min (6.29CFM)
Digital Tire Inflator	Max. Pressure:	155PSI
Inflator Hose	Pressure Switch On:	110PSI
Air Blow Gun	Pressure Switch Off:	155PSI

NET WEIGHT	PACKING SIZE
18kg/pc	560*180*380mm 1pc/ctn

ON-BOARD TWIN AIR COMPRESSOR KIT

PART NUMBER: TRAM-2TAC-B002

Kit Include :	Working Voltage:	DC-12V
Twin Air Compressor	Max. Current:	60A
	Operating Environment:	-40°C →+ 80°C -40°F →+ 176°F
	Highest Air Flow Rate:	178L/Min (6.29CFM)
	Max. Pressure:	155PSI
	Pressure switch on:	110PSI
	Pressure switch off:	155PSI

NET WEIGHT	PACKING SIZE
9.5kg/pc	560*180*380mm 1pc/ctn

SUSPENSION

TRE NITROGEN SHOCK ABSORBERS

Nitrogen Reservoir

Single cylinder with nitrogen tank design, built-in high-purity & high-pressure nitrogen.

Suspension Body

Made by 7075 forged aviation aluminum, double electroplating treated 2.5 inch shock body

Compression Adjustor

Compression adjustor, makes adjustment simple, intuitive and fast.

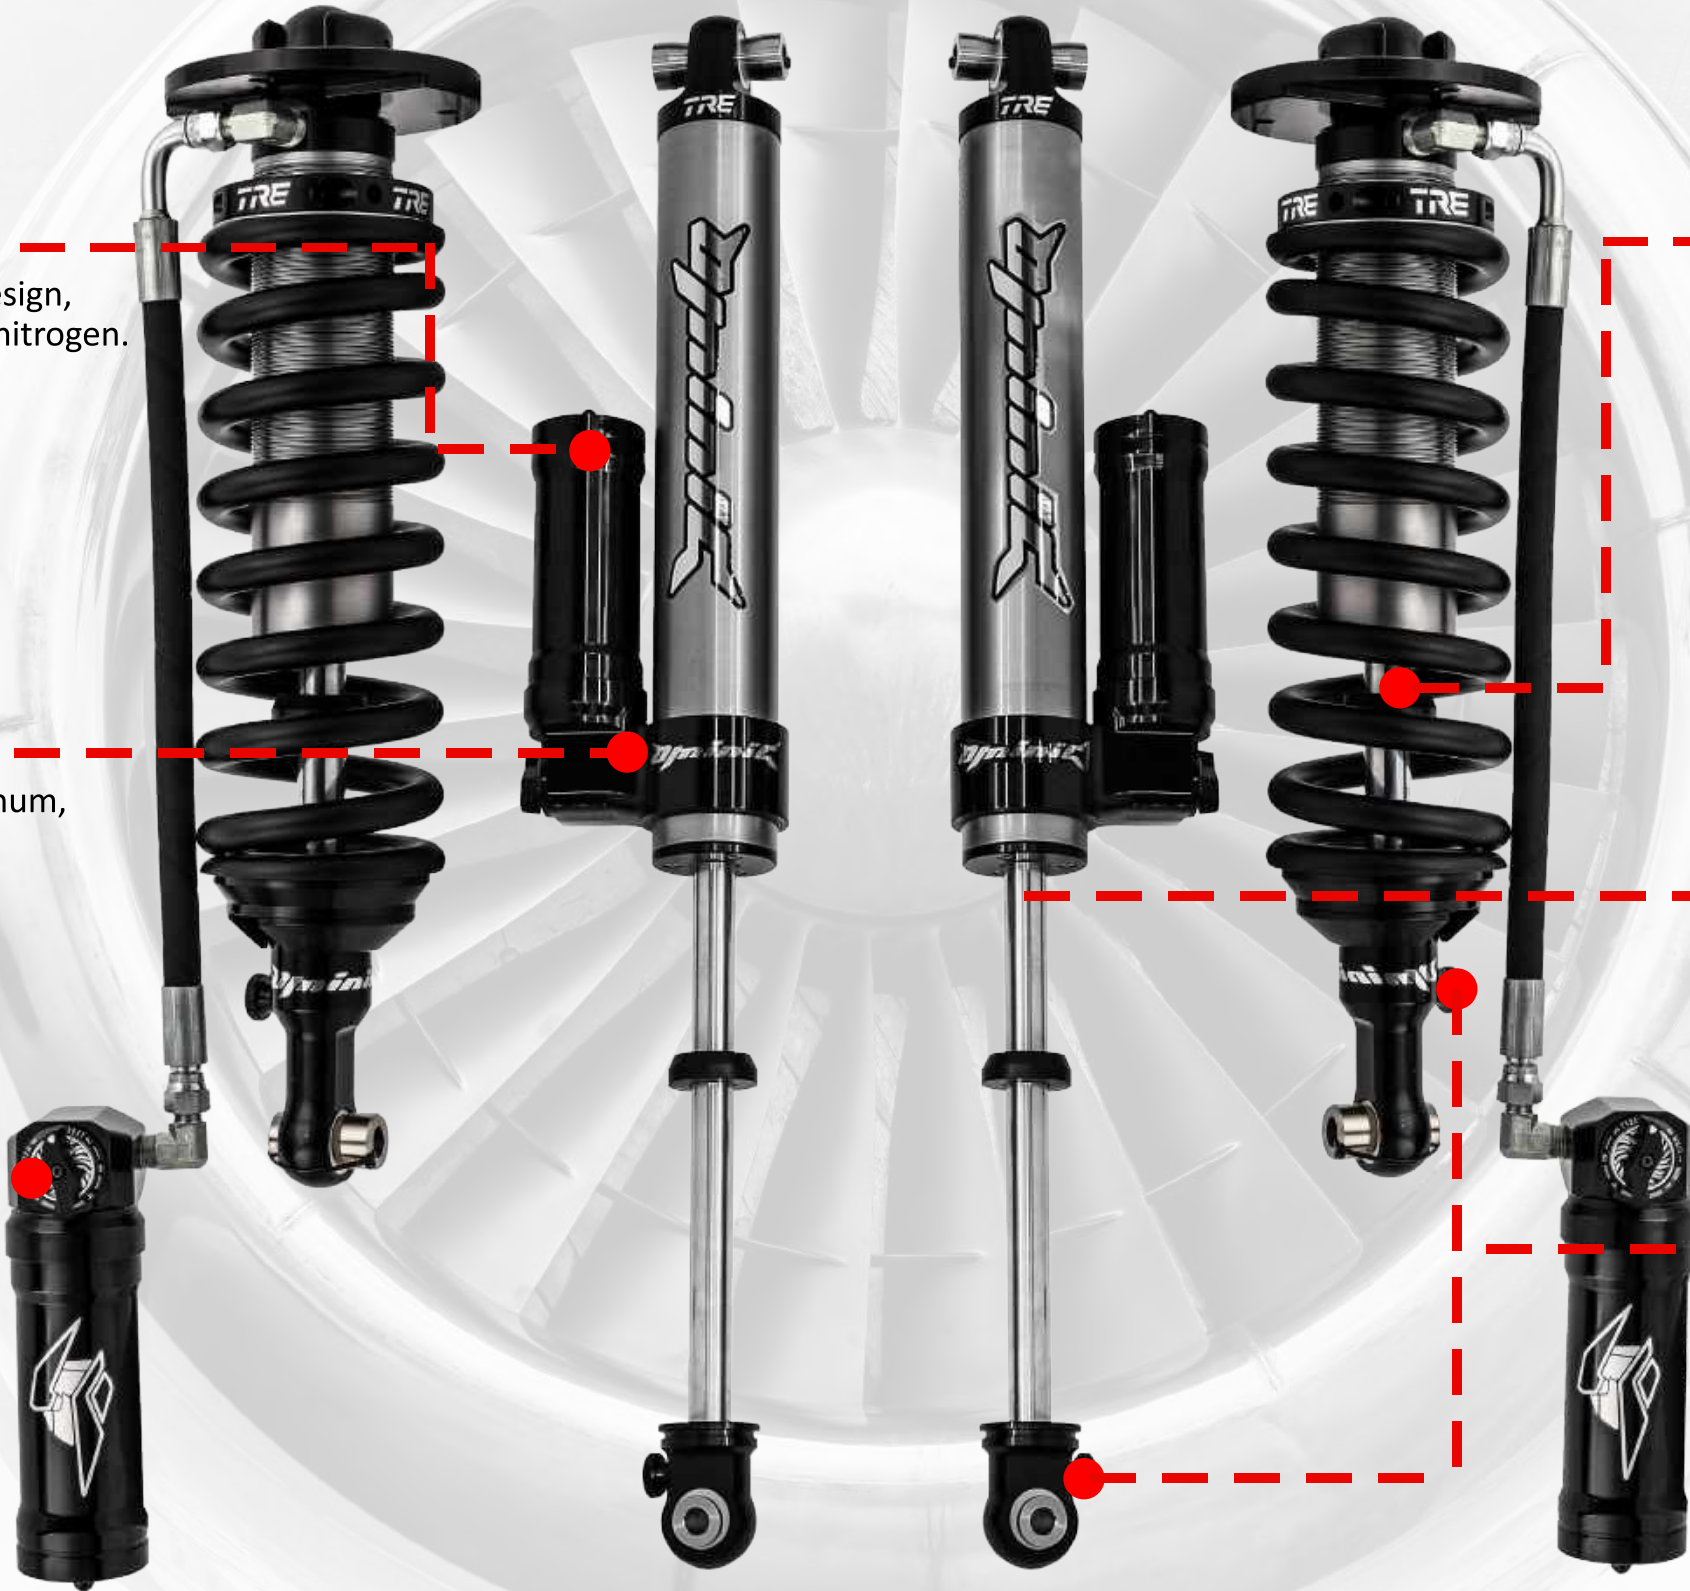

Piston Shaft

Large flow, low viscosity design 22mm chromoly alloy steel piston shaft

Oil Seal

Dual oil seal design ensure durability under extreme conditions

Rebound Adjustor

TRE OMNIX NITROGEN SHOCK ABSORBERS

SUIT FOR JEEP
(JK/ JL /JT)

SUIT FOR TOYOTA
TACOMA

TRE LIFT KIT

ADJUSTABLE CONTROL ARM KIT

TRE MONOTUBE NITROGEN SHOCK

OIL SEAL

DUAL OIL SEAL DESIGN ENSURE DURABILITY
UNDER EXTREME CONDITIONS

TRE MONOTUBE NITROGEN SHOCK

SUSPENSION BODY

MADE BY 7075 FORGED AVIATION ALUMINUM

DOUBLE ELECTROPLATING TREATED

2.5 INCH SHOCK BODY

RACE EXTERNAL BYPASS SHOCK ABSORBER

The TRE4x4 External bypass shock absorber adjusts the opening of each channel according to the different strokes of the shock absorber. This allows for different strokes, shock absorber rebound and compression, which can all be adjusted individually and separately. It can not only ensure the comfort of the vehicle when driving on the road (When the shock absorber has a small stroke, can adjust the External bypass shock absorber for to be comfortably) and can ensure the stability of the vehicle when off-road driving (When the stroke changes, change the oil pipe channel to give the vehicle greater damping force to control the vehicle more stably.)

TRE ALUMINUN UPPER CONTROL ARM

Feature:

- 1. increased wheel travel
- 2. quality PTFE-lined rod ends and machined adjuster sleeves
- 3. CNC machined 6061 aluminum
- 4. On-Vehicle Adjustable For Quick And Precise Alignment

TRE ALUMINUN LOWER CONTROL ARM

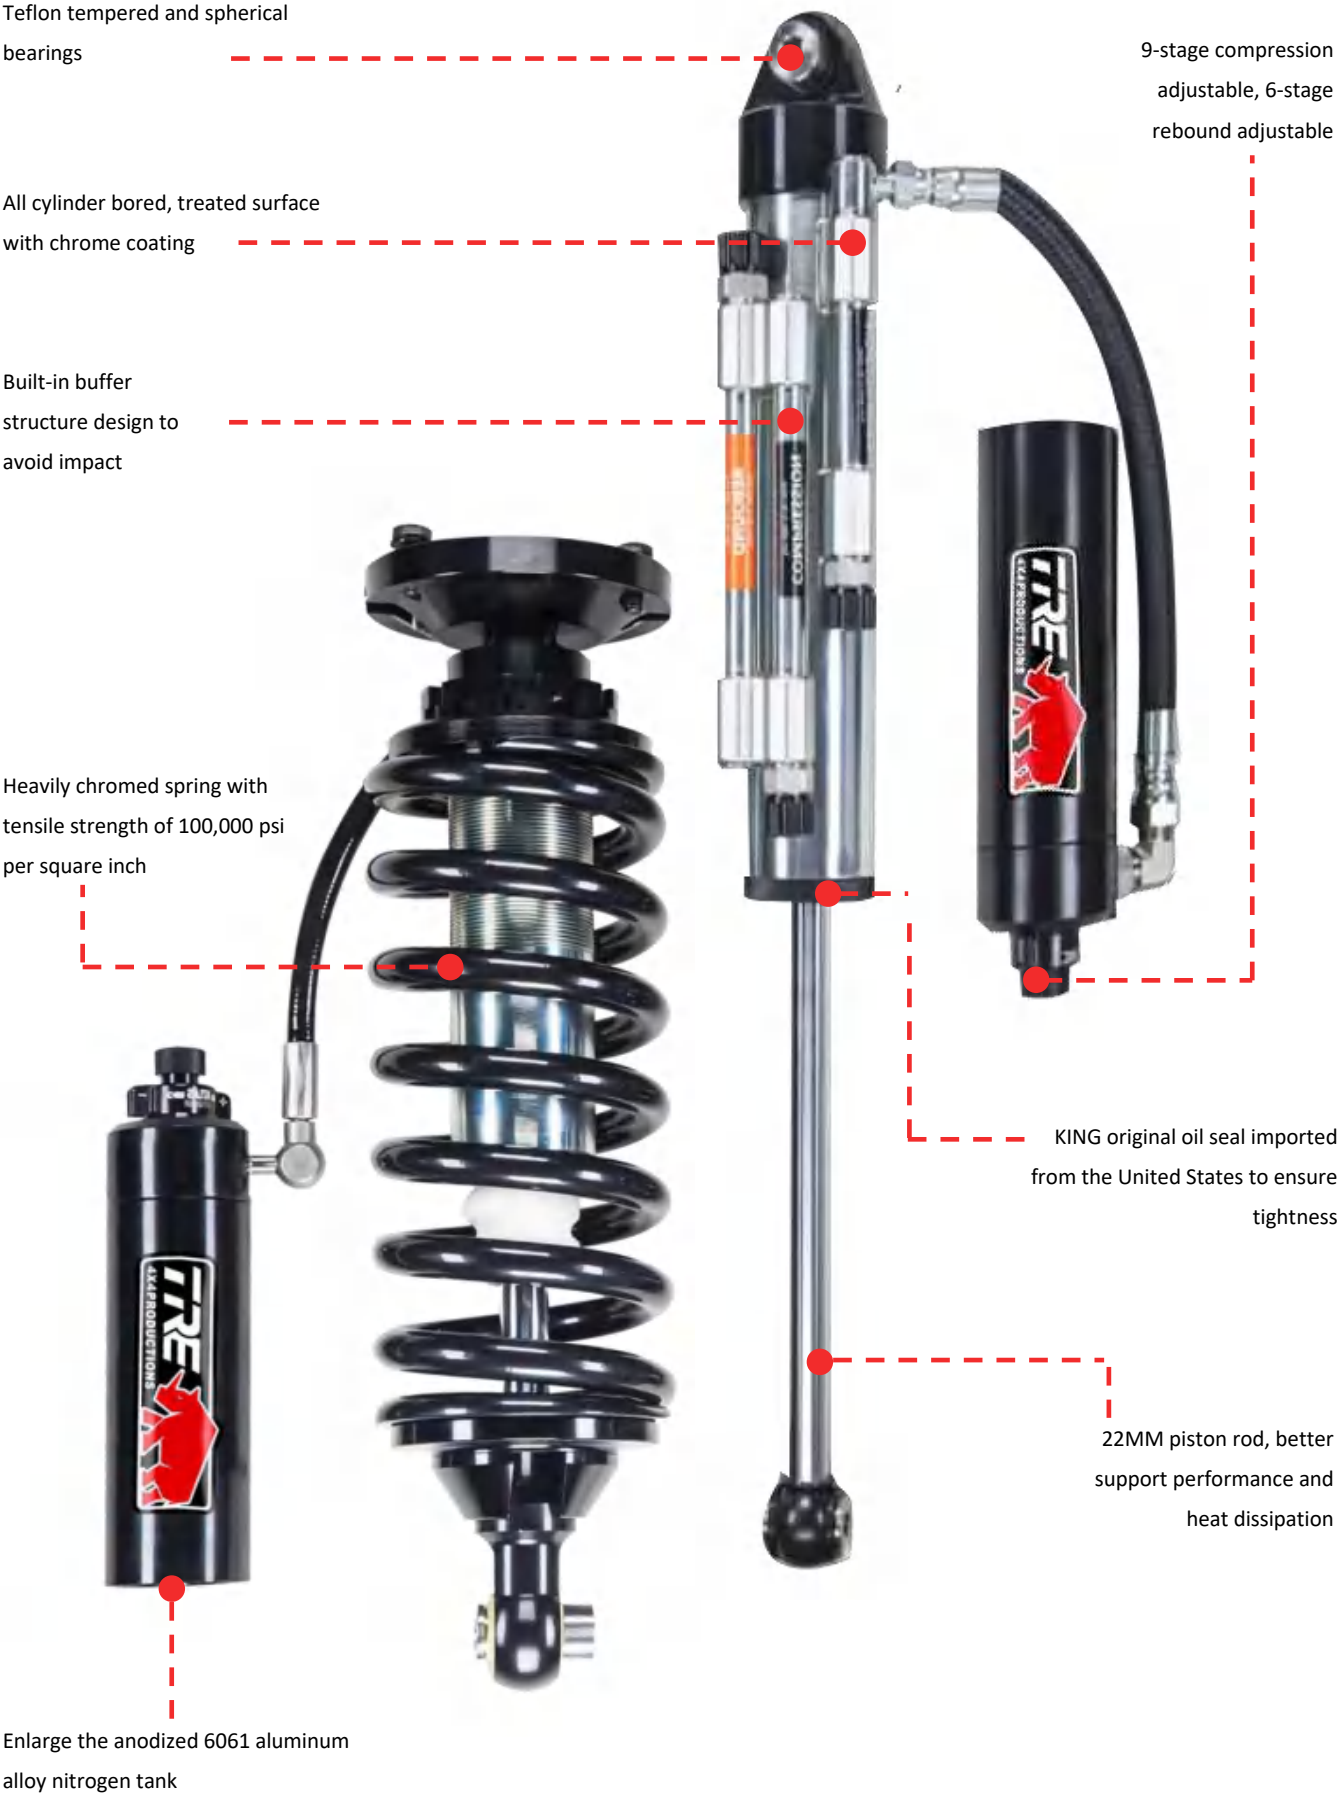

Suit for :

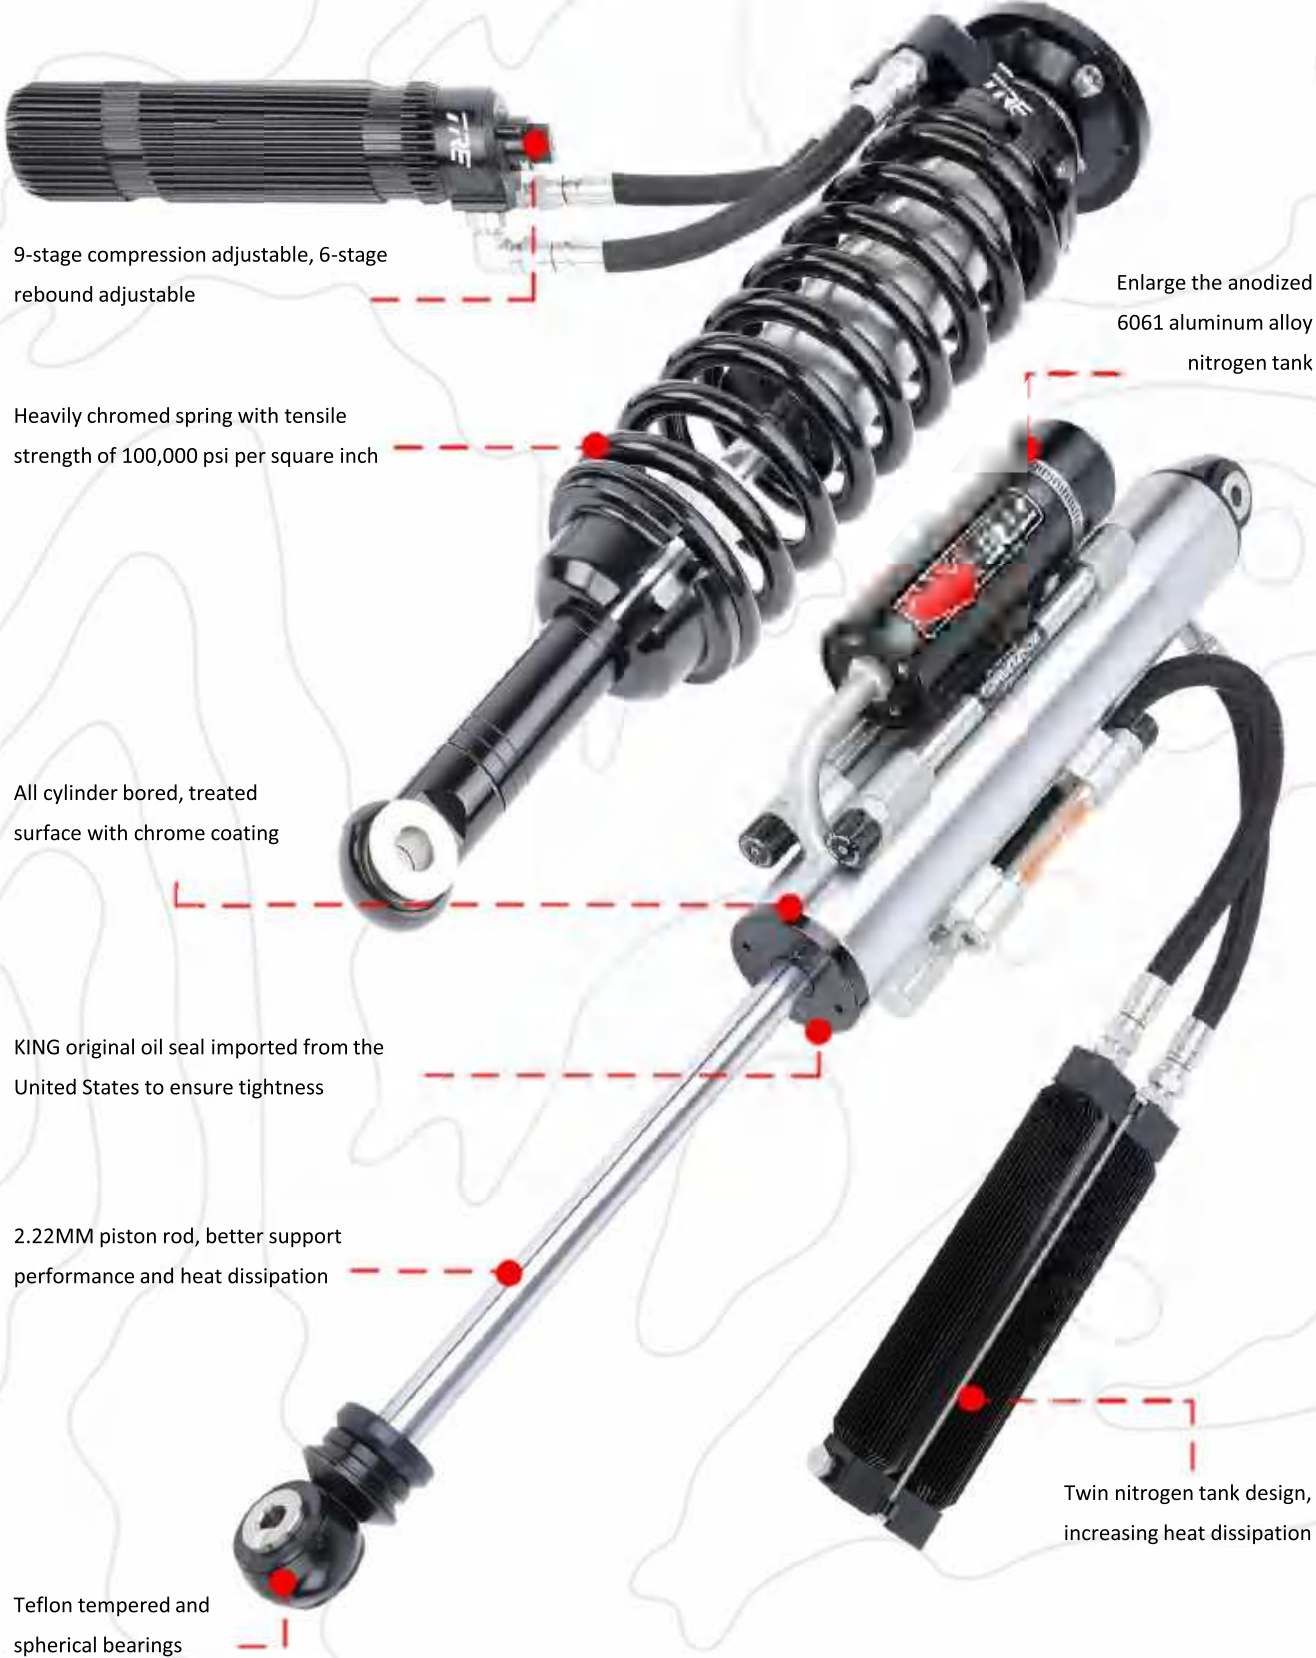

Toyota Land Cruiser 80/120/150/200 series, Toyota FJ Cruiser, Nissan Y62

Feature:

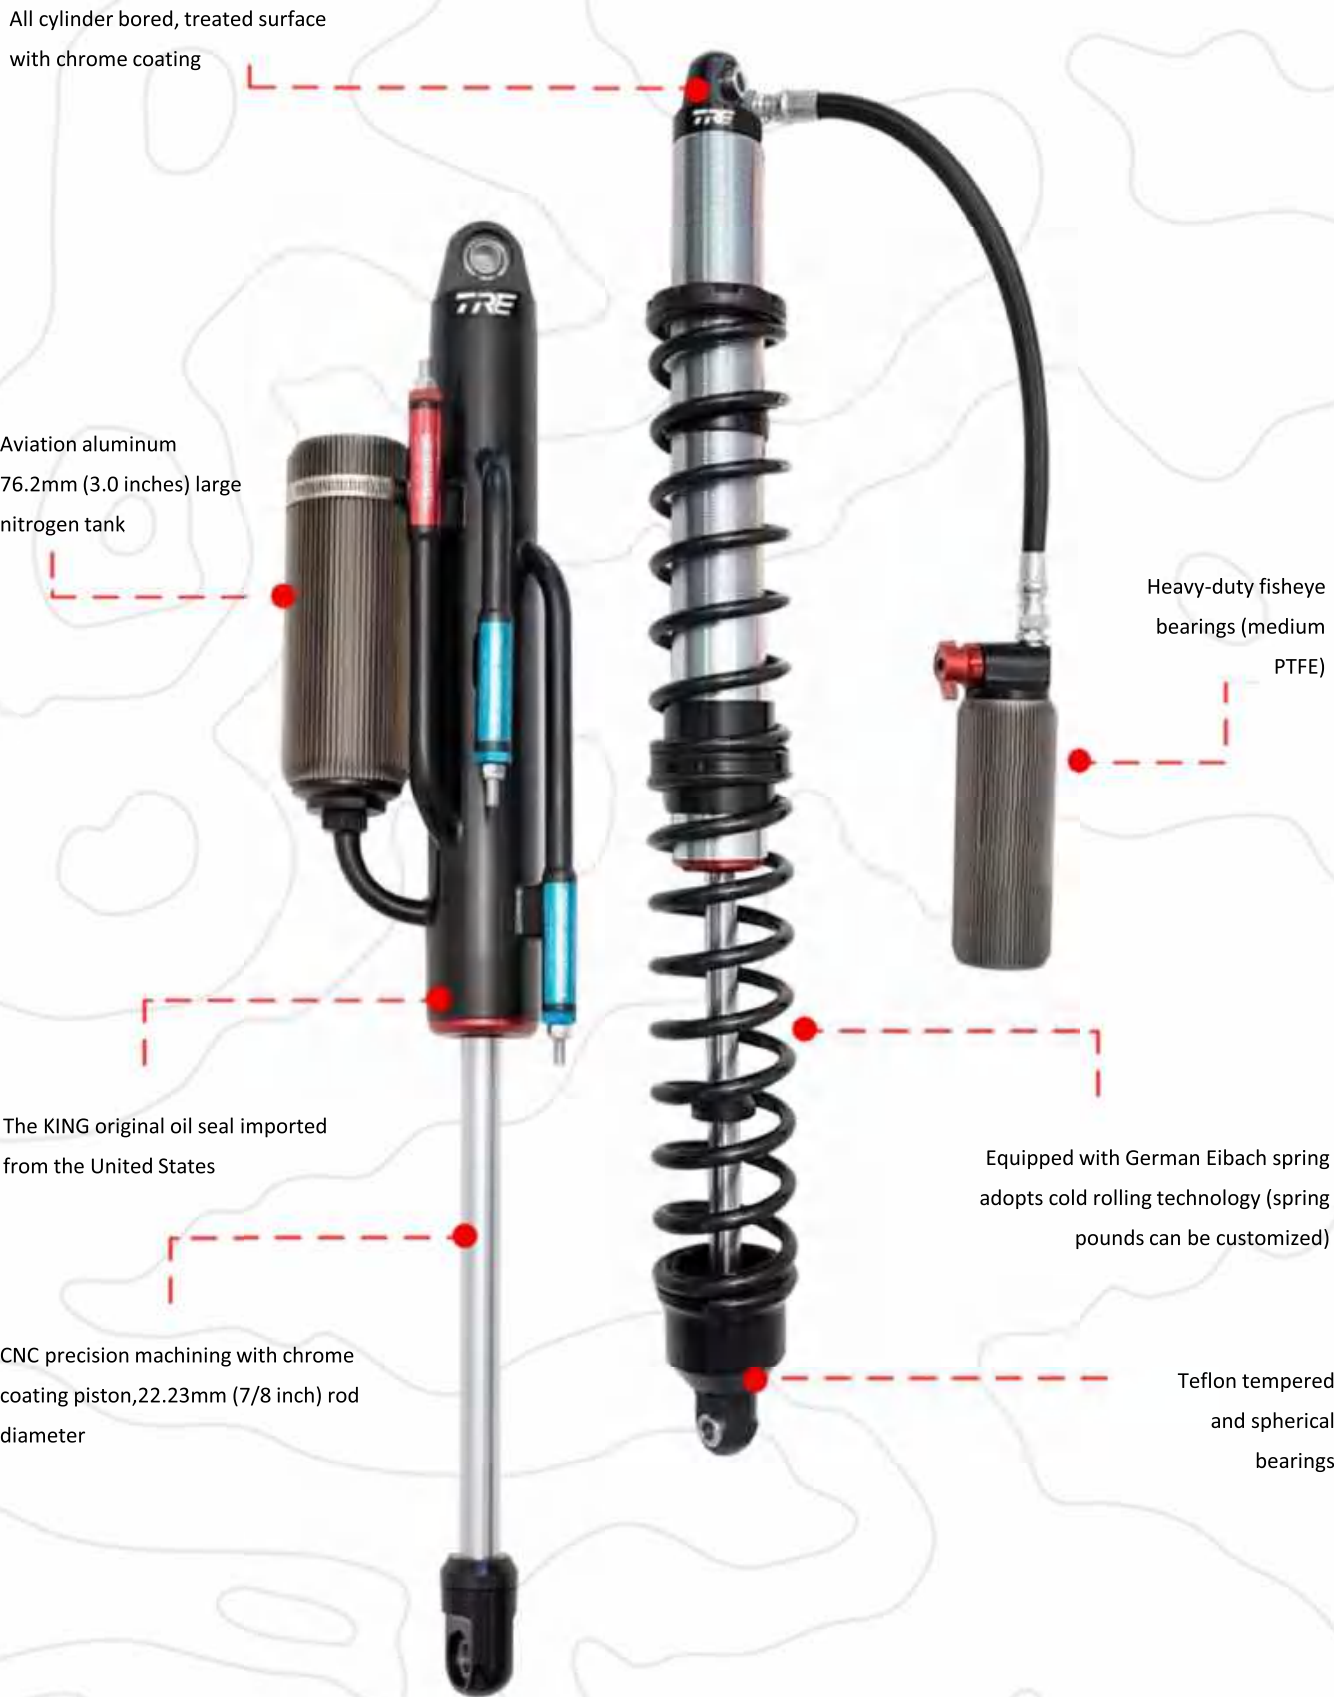

- Quality PTFE-lined rod ends and machined adjuster sleeves
- Treated with an anti-corrosion coating
- Preamsembled for fast installation

EXTERNAL & INTERNAL BYPASS DUAL COOLING SYSTEM(DCS) SHOCK

RACE COIL OVER 8-18 INCH EXTERNAL BYPASS SHOCK

TRE TWIN TUBE SHOCK ABSORBERS

All-steel alloy structure, aluminum hardware

4.5mm wall thickness twin tube construction

40mm piston
18mm piston rod

60mm body diameter

Independent spring tension to customize stiffness without changing the ride height

SUSPENSION PARTS

BRAKE HOSES

TRE brake hoses are high-quality reinforced hoses that carry fluid to transmit force in hydraulic brake systems.

Double crimp joints to provide longer service life and durability

STEERING ROD

Steering rod is an important part in the steering mechanism of off-road vehicles. TRE4x4 Steering tie rods are divided into two categories, namely steering straight tie rods and steering tie rods. The steering straight rod undertakes the task of transmitting the motion of the steering rocker arm to the steering knuckle arm; the steering tie rod is the bottom edge of the steering trapezoid mechanism and is a key component to ensure the correct motion relationship between the left and right steering wheels

EXTENDED SHACKLE

TRE Control Arm tend to prevent the car from shaking (or more precisely, not to lean to one side or the other). This is what the swing bar does: to prevent the body from tilting

CASTER CORRECTED RADIUS ARMS

When a coil sprung 4x4 vehicle is lifted ,the caster angle of the front axle is changed. The effect this can have is vagueness and the lack of self-centring of the steering. For trucks with suspension lifts we recommend fitting caster corrected radius arms to return the steering to the correct geometry.

In order to prevent the spring from bending too much, it is essential to install caster corrected radius arms

STEERING STABILISERS

Its spring will help the vehicle's wheel to go back to the center, so the driver will know exactly the vehicle's wheel position when going through mud.

It change the problem that vague directions and big gap.

When the car is installed the big tire , As the Friction increases but the power of the car turning did not change , 18MM HRC60 High strength piston rod, NOK double structure oil seal system ,High-qualified Rubber bushing to ensure your driving is smooth.

BUMP STOP

Every type of suspension system on nearly all vehicles built includes some sort of bump stop. These simple devices are used to protect the vehicle when the suspension reaches full compression when encountering a bump or dip in the road surface. TRE4x4 Bump Stop are used to prevent metal-to-metal contact of suspension and/or chassis components. Allowing suspension components to bottom out uncontrolled would lead to catastrophic failure.

COIL SPRING

TRE4x4 Spring ensures product stiffness, toughness and strength, and is cold rolled by the most advanced technology to reduce the change of spring characteristics. Each spring is pre-pressed and shaped at the factory, and the finished product can only be delivered after passing a variety of impact load tests. All specifications are accurately set according to the actual use requirements of customers.

Maximize performance to enhance your driving comfort and handling.

CONTROL ARM

1. Increase the arc of the arm to solve the shock absorber collision problem.
2. Equipped with lubricating oil nipple to increase the service life of the bushing and prevent abnormal noise.
3. The stress point is fully reinforced, making the control arm stronger.

PANHARD ROD

Designed to correct axle alignment, the fitment of an adjustable panhard rod eliminates potential contact between tyre and body.

All TRE4x4 Adjustable Pandard Rods are single thread off car adjustable and adjustable as required to re-centralize the axle to vehicle , with reliability, durability quality to greatly enhance your off-road experience .

RETURN-TO-CENTER STEERING STABILIZERS

Its spring will help the vehicle's wheel to go back to the center, so the driver will know exactly the vehicle's wheel position when going through mud.

It change the problem that vague directions and big gap. When the car is installed the big tire , As the Friction increases but the power of the car turning did not change , 18MM HRC60 High strength piston rod, NOK double structure oil seal system ,High-qualified Rubber bushing to ensure your driving is smooth.

BUMPER & PROTECTION

BUMPIER & ALPHA

ALPHA BUMPER

Production process: Acid washing, phosphating, electrophoresis, and spray coating. Ensuring 15 years of corrosion-free durability

Press-formed top bar can mount any driving light or light bar

Equipped with fog light and turn signal light

Radar sensor holes pre-drilled

Built-in winch tray suitable for different sizes of winches

Airflow holes designed to offer sufficient air to the radiator

Equipped with D-ring mount brackets

ALPHA

TRE ALUMINIUM MODULAR BED RACK

SPECIFICATION

Meticulously crafted from lightweight yet sturdy aluminum alloy materials.

Adjustable width settings allow users to accommodate different truck sizes.

Universal mounting bracket, drilling required for installation

TRE4x4 modular bed racks are commonly used by outdoor enthusiasts, campers, and overland adventurers. They provide a versatile platform for mounting items such as rooftop tents, storage boxes, recovery board, and other cargo.

Internal Conduit/Duct for Wiring/Airlines

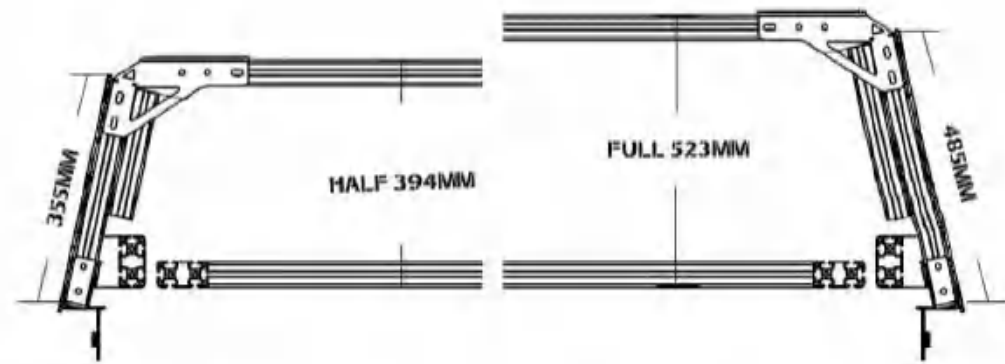

Designed with aerodynamics to reduce wind resistance when carrying rooftop tent on the roof.

4 side-turning doors with gas springs for convenient access to the cargo.

Sliding Platform: make it easier to storage ,load and unload cargo.

MODULAR DESIGN

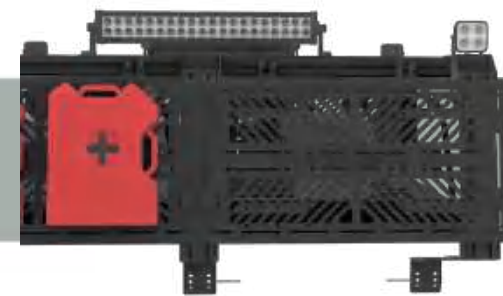

Bed rack load capacity (evenly distributed) 200kg for dynamic off-road, 400kg for dynamic on road, and 800kg for static or original vehicle bed load standards, whichever is lower.

- Sliding platform capacity: 150kg
- Material: Aluminum alloy
- Surface process: anodizing
- Maximum extension of the sliding platform: 90cm
- Adjustable width: spanning from 1430MM TO 1670MM
- Height: 394MM/ 523MM
- Length: 1390MM

FIT FOR ALL PICKUPS

FURTHER EXPANSION POSSIBILITIES

Allows users to customize the rack's configuration to meet their specific needs.

Slide Plat-form: make it easier to storage, load and unload cargo.

4 side-turning doors with gas springs for convenient access to the cargo.

RECOVERY GEAR

TRE RECOVERY BOARD PRO-II

PART NUMBER:TR-RB002

TRE RECOVERY BOARD PRO-II, specially designed with the unique effective function and beautiful appearance, is the most reliable friend of every driver got in stuck of the trip but no one's there could provide a hand. They would assit you in getting rid of the dilemma when lacking other traction in any toughest of conditions, like in sand, mud or even snow.

TRE RECOVERY BOARD PRO-II are strongly durable, wear resistant and high flexibility. With the unique composite construction EXOTRED, they could help the tyres restores the adhesion and provide the ultimate traction by maintaining a highly pressure on the tyres against the flex of being under vehicle weight on less than stable ground.

Recovery board MOUNTING KIT

TR-RB002-MK

Key Features

- Nylon material for excellent flexity and durability
- Unique glass filled resin nylon teeth to reduce the wear from wheel spin
- Optimized design for contour ramps based on the data of 4x4 tire and TRE precision pattern data
- With heavy duty over-moulded Spare replaceable nodules
- TRE unique color and style
- TRE Pro-II recovery board come with a recovery leashes

TRE RECOVERY KIT

PART NUMBER:TR-RK003

TRE4X4 recovery kit is a comprehensive recovery kit containing everything required for a vehicle or winch based recovery.

Contents:

- 1 x Snatch Block 10,000kg
- 1 x Snatch Strap, 8,000kg, 9m x 60mm
- 1 x Tree Trunk Protector, 12,000kg, 3m x 75mm
- 1 x Winch Extension Strap, 5,000kg, 20m x 50mm
- 2 x D-Shackles 10Ton each
- 1 x Winch Damper
- 1 x Gloves (Pair)

TRE TRUNK PROTECTOR

PART NUMBER:TR-SSP12000-003

20% Stretch
Breaking Load : 17 Ton
Part number: TRG-SS-3
Reinforced eyes: Yes
Material: 100% polyester
Eye&seam protector sleeves: Yes
Work load limit: 12000kg/26500LB

Length	Width
3m/10ft	75mm/2.95inch

SNATCH STRAP

PART NUMBER:TR-SSP8000-002

20% Stretch
Breaking Load: 12Ton
Part number: TRG-SS-1
Material: 100% polyester
Eye&seam protector sleeves : Yes
Work load limit : 8000kg/17500LB

Length	Width
9m/30ft	75mm/2.95inch

TRE RECOVERY ROPE

PART NUMBER:TR-RCR20-75000\TR-RCR30-75000

Made from UHMW-PE, more wear-resistant.
30% stretch, giving those using it a safer and gentler recovery.
Water, UV resistant.
Highest breaking strengths available, certified at our factory

WINCH EXTENSION STRAP

PART NUMBER:TR-SSP12000-003

20% Stretch
Breaking Load : 6 Ton
Part number: TRG-SS-2
Reinforced eyes: Yes
Material: 100% polyester
Eye&seam protector sleeves : Yes
Work load limit: 5000kg/11000LB

Length	Width
20m/66ft	50mm/1.97inch

TRE SOFT SHACKLE

PART NUMBER:TR-SSK001

Soft Shackle is an essential part of any recovery kit. TRE Soft Shackle provide a lighter, more versatile, and safer option. It's rugged and strong .

Water resistant & Floats
Maximum pulling force : 8Ton
Breaking Load : 17 Ton
Materials : UHMWPE
(Ultra High Molecular Weight Polyethylene)

WINCH RECOVERY S-HOOK(8TON)

PART NUMBER:TR-SH001

TRE4X4 S-Hook, The ideal choice for competitive winches challenge. It has a higher rated strength, which can provide you with a greater safety margin when winches. Rated Load: 8 Ton
Breaking Load: 16 Ton

TRE SNATCH BLOCK

PART NUMBER:TR-SB2-001

- Easy attachment and more flexibility in use
- Compact and lightweight design for easy transportation and storage
- Suitable for most winches and ropes
- Smooth surface to prevent rope wear and damage
- Heavy-duty steel construction for durability and strength

Breaking Load: 28 Ton
Weight Capacity: 10 Ton/22.000 lbs
winch wire rope: TO 16mm

TRE D-RING SHACKLE

PART NUMBER:TR-DS2-001

TRE shackles help your strap attach to the vehicle. They will work for most 4x4s and are designed for recovery only .

- Rated Load : 10 Ton
- Breaking Load : 28 Ton
- Material : C45 Steel
- 3/4" steel winch -ring shackle with 7/8" pin
- E-coat, anti-rust and anti-corrosion
- Forged with alloy steel, and the shackle's pin is threaded to allow easy removal.

TRE RECOVERY HITCH

PART NUMBER:TR-RHT-0011

- WLL : 12.500kg / 27.500lbs
- MATERIAL : 6061 Aluminium Alloy
- SIZE : 20cm*5cm*6cm

D-SHACKLE AND SOFT SHACKLE COMPATIBLE

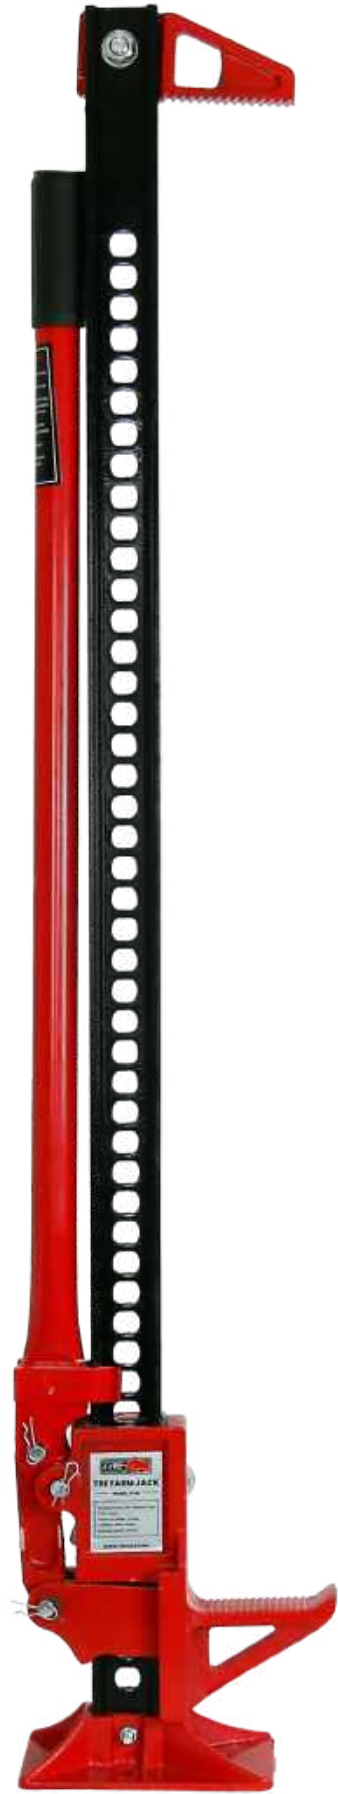

TRE DAMPER

PART NUMBER:TR-DP001

One winching precaution is the fitting of a recovery damper prior to a load being applied. The recovery damper will absorb most of the energy in the cable or strap,significantly reducing the recoil .

- Pocket for accessory storage
- Heavy duty durable vinyl construction
- Silver reflective tape for night time visibility
- Rubber-coated center section guards against sliding
- Complies with 4WD competition damper requirements

TRE FARM JACK

PART NUMBER:TR-FJ-48

MAXIMUM RATED LOAD 4660lbs(2273kg)

AT 48" (121cm)

TESTED TO 7000lbs. (3275kg)

CLAMPING 750lbs. (340kg)

WINCHING 5000lbs. (2267KG)

WINCH

PART NUMBER

12000LBS Steel Cable: TED-120WH-005
12000LBS Synthetic Rope: TED-120WH-006

17000LBS Steel Cable: TED-170WH-007
17000LBS Synthetic Rope: TED-170WH-008

High performance series wound copper motor
7.0hp/5.2kw, 12v DC ribbed radiator for faster motor cooling

Available with steel or synthetic
rope, with pulling capacities
from 12000lbs to 17000lbs

Smooth operating clutch with waterproof o-ring

High efficient three-stage planetary gear
train. Low friction design allows
permanent grease lubrication.

Designed for off-road driving
Super wide tie bar enhances strength. Ensure the winch
delivery a quiet, fast and reliable pulling power

Extra thick legs support high rotational loads

Aluminum winch fairlead

wired/wireless remote control

It's only a matter of time before you run into trouble when you go off the main roads and start explore. Make sure you have the right equipment to get you out of any predicament to enjoy the adventure and experience.
TRE TED Winches come in all shapes and sizes, provide the best solution for every off-roader to get out of trouble.

Whether it be steep trails, muddy roads, or snowy streets, you know you can depend on your truck and your driving skills to get you through. When things get extra tough, you see it not as a setback but as an opportunity to demonstrate and improve on your off-roading skills. You know that you can get through any challenge. That's why a good truck winch can be so important. By keeping a setback from turning into a major problem, truck winches equip you to get out of nearly any sticky situation.

TRE TED winch is equipped with a winch motor breather, directly integrated into the motor housing. This special design is conceived to meet the demands of various recovery conditions.
Using the material of ultra high molecular polyethylene fiber,
TRE extrem tough winch rope is double braided with 12 inner strand rope.

LIGHTING

TRE 7” FLASH DRIVING LIGHT

PART NUMBER: LTF-DL-7-SB
3W OSRAM LED
Input: 10-30 DC
Power: 48W
Current Draw: 4.16@12V, 2.12A@24V
Output-Effective: 4320 Lumens
Lux @M (Single Light): 1 lux @ 495m
Colour Temp: 6000K
Warranty: 5 years
IP68 dust and waterproof rating
Spot beam

TRE 22” LIGHT BAR

PART NUMBER: LTF-LB-22-CB

3W OSRAM LED
Input: 10-30 DC
Power: 120W
Current Draw: 8.27@12V, 4.09A@24V
Output-Effective: 10800 Lumens
Lux @M (Single Light): 1 lux @ 636m
Colour Temp: 6000K
Warranty: 5 years
IP68 dust and waterproof rating
Flood & spot beam

TRE 20” SUPER SLIM FLASH LED LIGHT BAR

PART NUMBER: LTF-SSLB-20-CB
Input: 10-30 DC
Power: 105W
Current Draw: 7.95A@12V, 3.89A@24V
Output-Effective: 5975 Lumens
Lux @M (Single Light): 1 lux @ 638m
Colour Temp: 5700K
Weight: 1.8 kg
Dimensions: 522mm*40mm*55mm
Connector: DT
Warranty: 5 years
IP68 dust and waterproof rating Flood & spot beam

TRE 3.2” CUBE LIGHT

PART NUMBER: LTF-CL-3.2-FB

10W OSRAM LED
Input: 10-30V DC
LED Power: 40W
Current Draw: 3.39A@12V, 1.62A@24V
Colour Temp: 5700K
Warranty: 5 years
IP67 dust and waterproof rating
Optional beam: Flood

DRIVING LIGHT COVER

PART NUMBER: LTF-CV-DL-7

Manufactured from molded polycarbonate with scratch & UV resistance, protecting the lens and bezel of the light.

LIGHT BAR COVER

PART NUMBER: LTF-CV-LB-22

Molded polycarbonate with scratch & UV resistance to provide best protecting for the 22" Light Bar.

1 TO 1 WIRE / 1 TO 2 WIRE

PART NUMBER: LTF-WL-1T1/LTF-WL-1T2

Multiple output terminals to choose from, support your personalized settings.

STORAGEL

SOLUTION

TRE SPACE CASE

The TRE Space Case is the ideal heavy-duty storage case for camping gear and tools.

FEATURES :

- Tough, rugged, and durable LDPE shell, built for any adventure!
- Preinstalled with gas struts to keep your lid open! (Except 52L)
- Steel Lockable Latches!
- Dust/Waterproof Gasket Seal!
- Stackable with like-sized TRE cases!
- Rope Handles with comfortable rubber grips to easily transport!
- Channels for use with ratchet straps to easily secure on your rig!
- Built in Drain plug for easy decompression or draining!
- Built in Bottle Opener so you are never thirsty!

KITCHEN KIT

TRE

DRAWER SYSTEM

WWW.TRE4X4.COM

MAGNETIC INDUCTION LIGHT

THE MAGNETIC INDUCTION LIGHT CAN BE PLACED FLEXIBLY ACCORDING TO YOUR NEEDS, PROVIDING CLEAR ILLUMINATION AND ALSO SERVING AS AN EMERGENCY LIGHT IN CRITICAL SITUATIONS. CONVENIENT AND PRACTICAL.

BRAND NEW HANDLE DESIGN

THE BRAND-NEW HANDLE DESIGN IS MORE ERGONOMIC, WITH A LIGHTER SWITCH, AN AESTHETIC SHAPE, AND ENHANCED DURABILITY.

DRAWER STYLE KITCHEN

THE DRAWER-STYLE KITCHEN IS A STORAGE SOLUTION DESIGNED SPECIFICALLY FOR OUTDOOR CAMPING, WITH A DRAWER LAYOUT THAT MAKES IT EASY TO STORE AND ACCESS COOKING TOOLS, INGREDIENTS, AND OTHER CAMPING ESSENTIALS. IT SAVES SPACE, IS EASY TO CARRY AND USE, MAKING IT AN IDEAL KITCHEN SETUP FOR OUTDOOR ACTIVITIES.

SPACE EXPANSION

INTEGRATING POWER OUTLETS AND USB PORTS INTO THE UNUSED SPACE OF THE DRAWER MAKES IT EASY TO CHARGE OR POWER VARIOUS ELECTRONIC DEVICES. WHETHER FOR OUTDOOR CAMPING, IN-VEHICLE POWER, OR A CAR AIR PUMP, IT PROVIDES CONVENIENT AND RELIABLE POWER SUPPORT TO ENSURE YOUR DEVICES ARE ALWAYS READY FOR USE WHILE MAXIMIZING SPACE.

ZEONTEK FABRICATED AXLE

**LIGHTER
STRONGER
MORE TRACTION**

Feature:

What makes our ZeonTek Fabricated Axle more strong? The point is the strengthen rib.

We have adopted the welding of strengthen rib in each important part of the axle.

ANSYS Mechanical is used to analyzing the structural strength under the conditions of the vertical force, lateral force, driving force and braking force, respectively. The analysis proves that the strengthen rib design of the product greatly improves its strength.

Feature:

ZeonTek Fabricated axle adopts trophy axle design concept, specially made for jeep wrangler JL and Gladiator JT. The increased axle tube's diameter and thickness offer the best strength to adapt to various terrible terrains and off-road conditions.

Tube diameter: 100mm

Tube thickness: 10mm

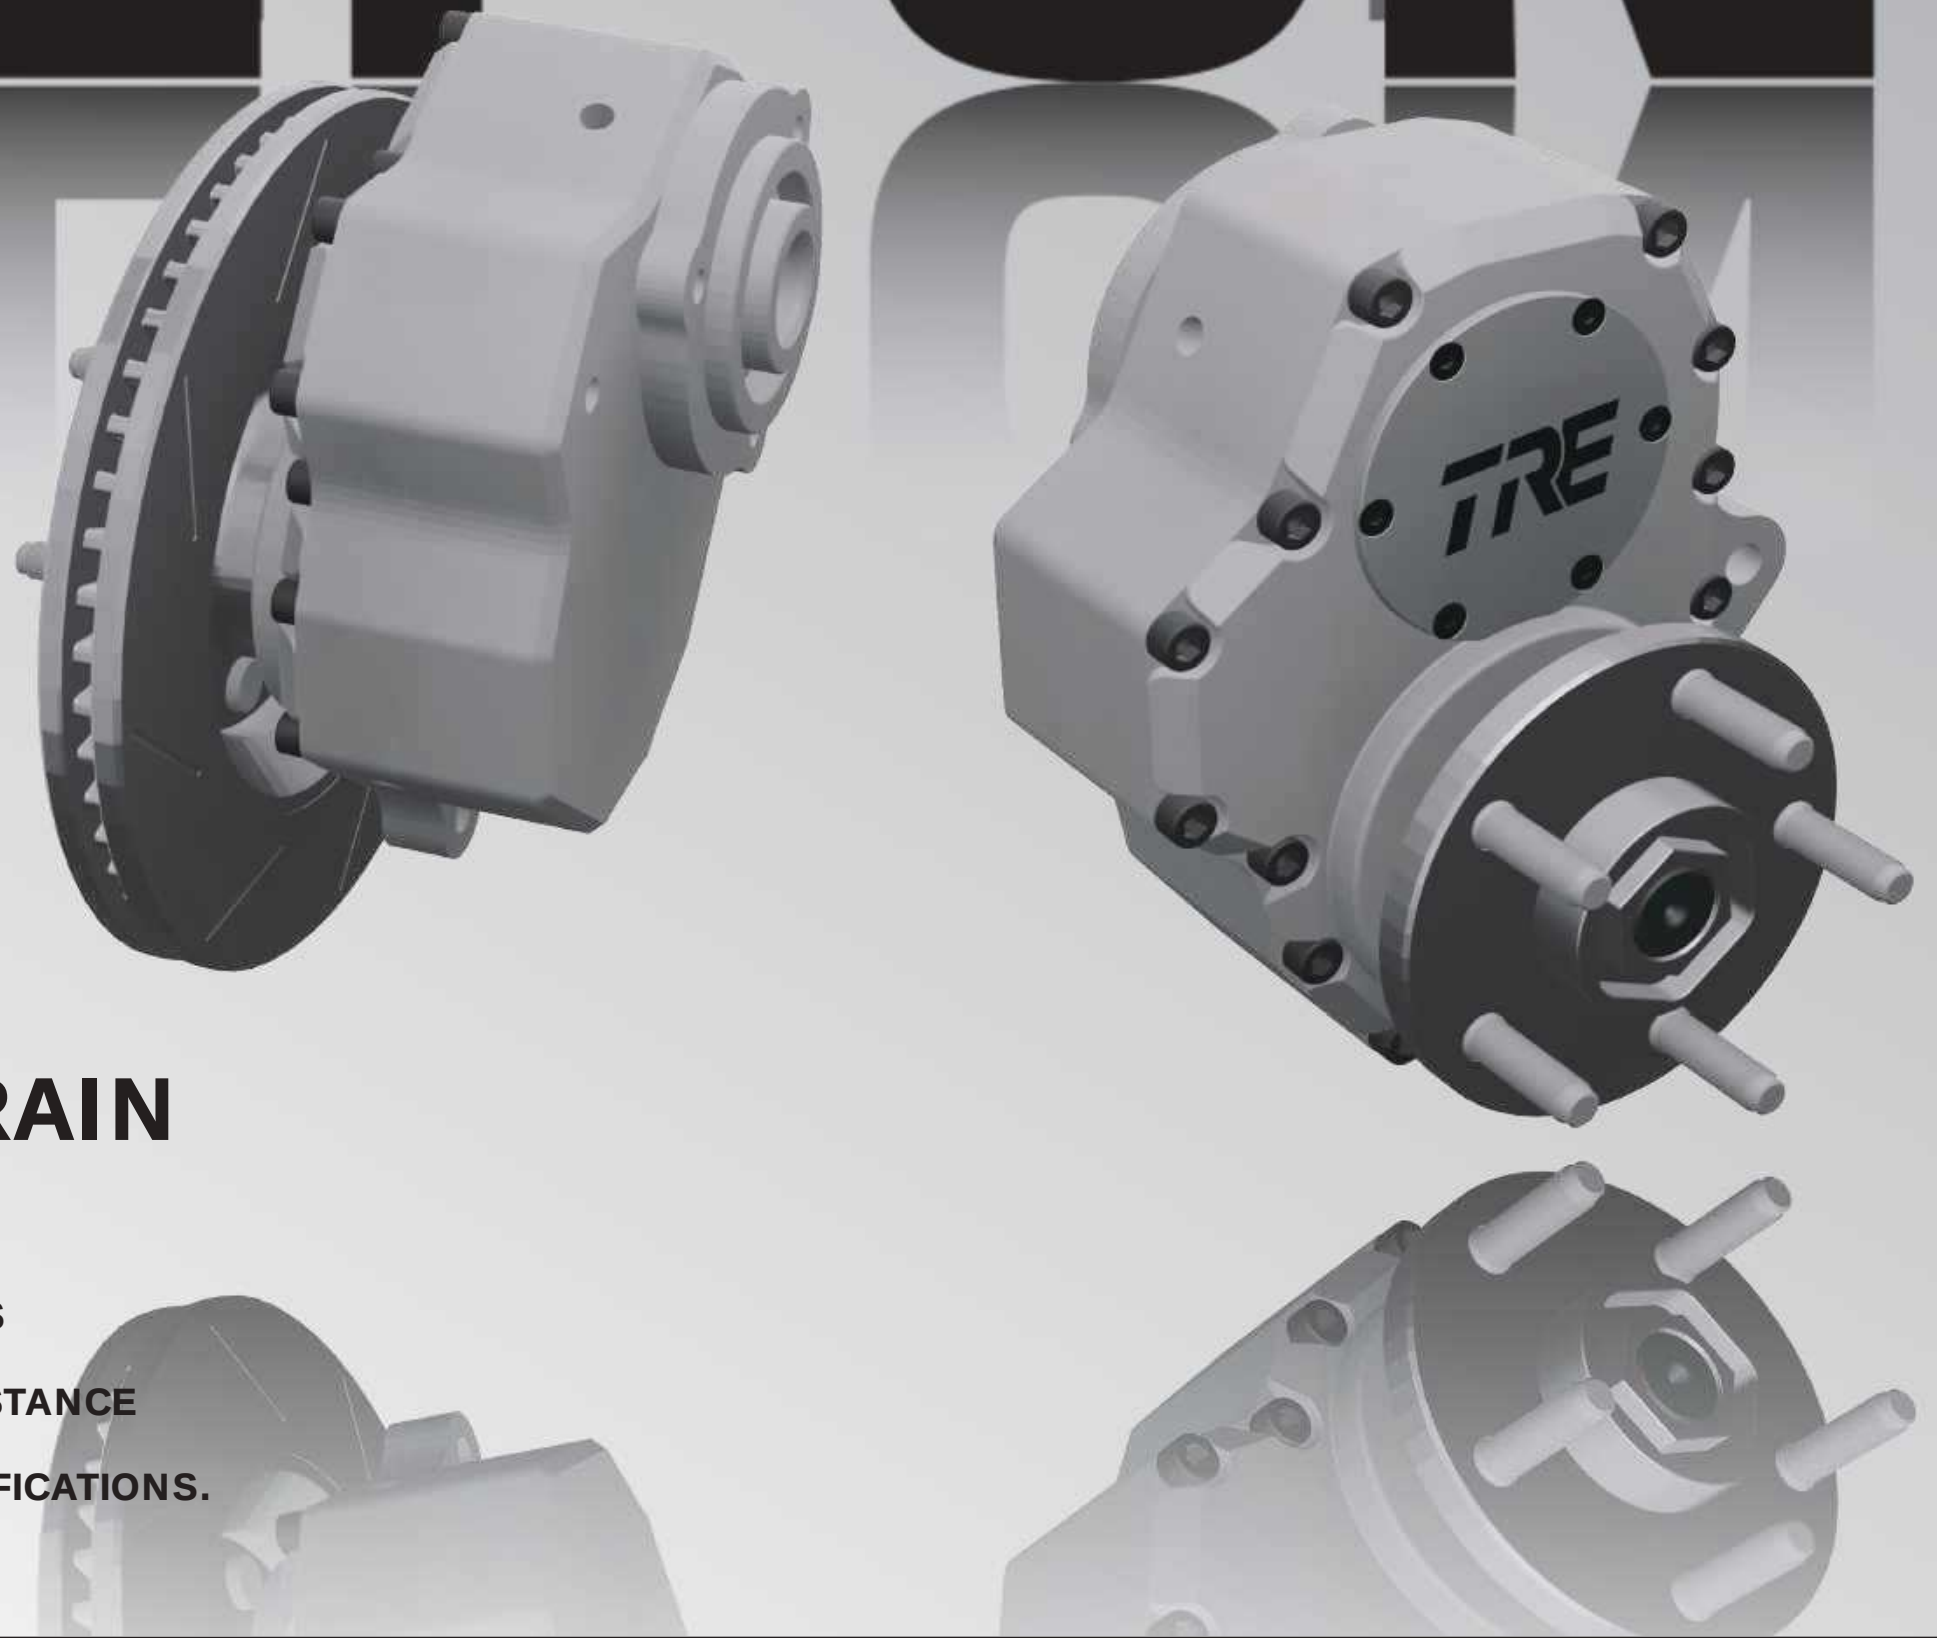

Provide the maximum strength and best performance while maintaining lightweight

PORTABLE FRIDGE FREEZER

TRE ICERHINO PORTABLE FRIDGE FREEZER

Overview

TRE ICERHINO ---- the fridge for people on the move.

No matter where you are boating, four wheel driving or camping adventures, ICERHINO portable fridge freezer offers excellent performance with the temperature range from -18 degrees to 10 degrees Celsius. It's capable of being powered by a 12V and 24V car battery and also be able to be powered by 110V-240V mains at home as well. With renowned compressor technology, Germany designed and highly efficient cooling system, TRE ICERHINO provides low power consumption, quiet and efficient operation and trouble-free enjoyment.

Feature

- Stainless Steel cabinet ,hinges, locks and handles.
- 3 Internal baskets included.
- Lower noise, healthy for baby sleeping.
- Temp Variance: -18°C to 10°C.
- Super freedom, house hold and outdoor dual application.
- Renowned SECOP compressor technology .
- Polyurethane insulation.
- Multi-voltage , operate at DC 12V and 24V, AC 240V.
- Smooth walls, hygienic and easy to clean.
- Internal bright LED light.
- Digital control.
- USB port can charge small devices (0.5A).
- Available in 48, 58, 95 Litre capacities.
- Compressor:3 year-warranty, Other components:1 year-warranty

48L Ice-Rhino Fridge Freezer

Model No.: TRFF-NW50L006
Power supply: AC 100-240V DC 12/24V
Refrigerant: R134a
Foaming agent: C5H10
Climatic Class:10-43°C (SN/N/ST/T)
Cooling temperature: 10 to -18°C
N.W/G.W. : 17.0/19.0kg
Unit dimension: 74.8Lx41.0x42.8cm
Package dimension:73.7x47.5x48.3cm
CE certification
Germany SECOP compressor
Dual zone , controlled separately

58L Ice-Rhino Fridge Freezer

Model No.: TRFF-NW60L007
Power supply: AC 100-240V DC 12/24V
Refrigerant: R134a
Foaming agent: C5H10
Climatic Class:10-43°C (SN/N/ST/T)
Cooling temperature: 10 to -18°C
N.W/G.W. : 18.0/20.0kg
Unit dimension: 79.5x44.8x43.5cm
Package dimension: 78.9x51.4x48.3cm
CE certification
Germany SECOP compressor
Dual zone , controlled separately

95L Ice-Rhino Fridge Freezer

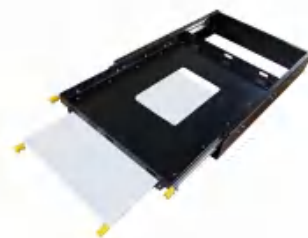

Model No.: TRFF-NW95L010
Power supply: AC 100-240V DC 12/24V
Refrigerant: R134a
Foaming agent: C5H10
Climatic Class:10-43°C (SN/N/ST/T)
Cooling temperature: 10 to -18°C
N.W/G.W. : 25/30kg
Unit dimension: 97 x53.2x46.7cm
Package dimension: 97.4x60.0x52.1cm
CE certification
Germany SECOP compressor
Dual zone , controlled separately

TRE M-DROP FRIDGE SLIDE

PART NUMBER:TR-DFS-M

- Fridge tray size: 770*468mm
- Fit all TRE fridges except 96L fridge
- Maybe fit other brand fridge
- Maximum load : 50kg
- Adjustable position of refrigerator (Up or Down)

TRE FRIDGE SLIDE WITH TABLE

PART NUMBER:TR-FST-68

- Fridge tray: 830*480mm
- Fit all TRE fridges except 96L fridge
- Maybe fit other brand fridge
- Maximum load : 50kg

COOLER

Keep your food and drinks cold for an extended time, and make the fun last longer, you'll have plenty of space for refreshments for the entire party. Whether you're headed on a long weekend camping trip, a road trip, or out to a BBQ, TRE coolers make you get to your destination easily. Two-way handles and light weight make you lift and carry easily.
